# Giang Nguyễn Đình

Frontend Developer

0345613090 ngiang1309@gmail.com github.com/RiverNguyen Hoai Duc, Ha Noi

## OBJECTIVE

Frontend developer with 1 year of experience in **NextJS** and **WordPress** development. Skilled in building responsive, SEO-friendly, and high-performance websites by leveraging Next.js as a modern frontend framework and WordPress as a headless CMS. Experienced in integrating APIs, customizing themes, and optimizing web performance to deliver smooth user experiences. Passionate about clean code, usability, and continuously improving technical skills to keep up with the latest frontend trends.

## WORK EXPERIENCE

**OKHub Agency** **Dec 2024 - Present**

**NextJS Developer**

- Build and maintain **responsive web applications** using **React.js, Next.js, and Tailwind CSS**, ensuring cross-device compatibility.
- **Enhance user experience** by implementing smooth animations and transitions with **GSAP**.
- **Optimize performance**: conduct **Lighthouse audits**, implement **lazy loading**, **image optimization**, **code splitting**, and apply **SEO best practices** to improve search rankings.
- Gather project requirements, develop **implementation plans**, and propose suitable technologies and solutions.
- Collaborate closely with team members to **meet deadlines** and maintain **high quality standards**.
- **Integrate third-party APIs** (RESTful APIs) and manage dynamic data rendering on the frontend.
- Manage application state using **Redux, Zustand, or Context API**.

**WordPress & Frontend Implementation**

- Developed **custom WordPress themes** from scratch, optimized for speed, SEO, and accessibility.
- Built **responsive UI layouts and interactive elements** (sliders, accordions, modals) using HTML5, CSS3, and JavaScript.
- Converted **UI/UX designs** (Figma, Adobe XD) into functional, **pixel-perfect interfaces**.
- Ensured **mobile responsiveness** and **cross-browser compatibility** for all components.

**Database & System Operations**

- Performed **regular database backups** and optimized queries for performance.
- Configured **WordPress** across different hosting environments (cPanel, VPS).
- Applied **security best practices**: managed file permissions, implemented reCAPTCHA, limited login attempts.
- Optimized websites using **caching, lazy loading, and script minification** to improve speed and user experience.

**F8 Technology and Education JSC** **April 2024 - Nov 2024**

**Web Development Class Manager - Fullstack Developer**

- Supported classes and students, assisted instructors with materials and Q&A.
- Tracked student progress, graded assignments, and provided feedback.
- Contributed to internal projects and optimized code.
